Happy New Year and Welcome Back to School

I would like to welcome our new members of the team Miss Snook (our new administrator) and Mrs Thompson (our new KS2 teacher). Please do say hello and give them a warm Leadenham welcome.

E-Safety Week

Next week is E-Safety week at Leadenham School. Children across the school will be learning how to stay safe when using electronic devices and how to stay safe on the internet. Helpful parent guides will also be available.

Celebration Assembly

Everyone is welcome to join us in celebrating our children's achievements at our weekly celebration assemblies. This term the dates are: Fri 8th Jan, Fri 15th Jan, Fri 22nd Jan, Fri 29th Jan and Fri 5th Feb. Friday, 12th February will be held at the church.

Science Week

Week beginning 8th February is science week. This will be a chance for every child to take part in experiments and to challenge the way we look at the world we live in. More information to follow.

After School Clubs

After school tick lists will be going home shortly. This is a chance for you and your child to discuss which of the activities they would like to take part in this term. Please can these be returned to the office by Friday, 8th January.

Key Instant Recall Facts (KIRFs)

To help children with their maths instant recall facts, each child will be given a target which they will be working on each term. Targets range from number bonds to times tables, and the focus of these change each term. A help sheet and target information will be coming home this week so that you are fully informed with ideas to support your children at home. The targets work as a progressive ladder, so whatever the starting point, each pupil will feel proud of their progress as they chart this in the classroom.

All pupils are able to practice their target at home using the website: <http://www.conkermaths.org/>

Maths support - Sumdog

Sumdog can be accessed at school and at home. Children are able to play games aimed at their specific maths targets. Children are able to earn points as a reward and swap these for costumes, etc for their Avatar. The website is 100% safe and is used in schools across the UK. Our children will have access to reading and writing sections of the website shortly. <http://www.sumdog.com/>

Thank you for your continued support
